COURSE NUMBER: SCI 31
COURSE TITLE: Human Biology
COURSE CREDITS: 3 units (45 lecture hours)

BASIC INFORMATION:
Class Meeting Hours: Wednesday 12:30 – 3:15 pm
Room number: TBA
Professor’s name: Dr. Khatia Mania
Office Hours: by appointment
Contact Telephone: (510) 238-9744
E-mail: mania@lincolnuca.edu

TEXTBOOKS:
Human Biology: Concepts and Current Issues by Michael D. Johnson,

Supplemental textbooks:
1. Physiology by Robert M. Berne, Matthew N. Levy,

2. The Human Body in Health and Disease
   By Barbara Janson Cohen

3. The Human Body in Health & Disease
   By Gary A. Thibodeau, Kevin T. Patton
COURSE DESCRIPTION:
The main purpose of the course is to study the organization (anatomy) and function (physiology) of the human body, from the single cell to the coordinated whole. Includes a consideration of body structure and function, reproduction, development, heredity and evolution, examination of the aspects of modern biology as it impacts the human species. (3 units)

COURSE OBJECTIVES:
Upon completion of this course, students should complete homework projects and presentations. Student should be able to:
- Demonstrate knowledge of human biology;
- Understand each body system;
- Understand functioning of human body as a system.

INSTRUCTIONAL METHODS:
Instructional methods will include lectures, classroom activities presentations and video material.

HOMEWORK:
The goal of the homework is to help students achieve the course learning objectives. Homework consists of two parts. First part is to read the textbooks and materials to review and analyze the lecture given during a previous class session. Students are expected to spend six hours for each class session outside of class in completing the reading assignments related to each lecture. These assignments are graded through short quizzes given at the beginning of the following class session. Second part of the homework consists of a project presented at the end of the course. Each student will choose the topic for presentation or will be assigned one by the instructor. The presentation should be approximately 10 minutes long and with 5 minutes for a discussion. The topic and format for the presentation will be discussed in class for more details. A final draft of the presentation must be submitted for review one week prior to the presentation.

Evaluation Criteria for Project:
- Clinical statement: 2%
- Background information: 2%
- Slide content: 2%
- Slide design: 1%
- Resolution of the problem: 2%
- Oral presentation in class: 1%
Total: 10% of all the course grading elements

Quizzes:
Students will take 10 quizzes; 10-15 questions each. These quizzes will address the detailed content and major concepts presented in the lectures, lecture outlines and text readings to evaluate students’ work outside of the classroom. If a student takes more than ten quizzes, only the best ten quiz scores will be used in calculating the student’s total points. Each quiz will be timed; 1 minute for every question to complete. No make-up quizzes for missed quizzes will be administered (students will receive no score for missed quizzes).
EVALUATION:

Grading Scale:

COURSE GUIDELINES:

To successfully complete this course, the students must pass the quizzes, homework and final exam portions with a 70% or better. Students should attend all the class meetings. However, considering possible urgent situations, students may be absent from maximum four class meetings with prior notice to the instructor. Three late arrivals would affect the grade.

The term grade is based on attendance, class activity, project, midterm and sum of quizzes, and final examination. Individual projects will be assigned at the beginning of the semester. Project is due by the last meeting before the final examination. No project will be accepted after the due date.

If students have missed the class without a valid reason, no make-up for quizzes and presentations will be allowed. Students can retake only one unsatisfactory quiz. No retake for missed or failed midterm examination. **Final examination, if failed, can be retaken only once. If failed second time, the subject is considered failed.** Dictionaries are allowed during the class time. **No electronic devices during the test time.**

During the written exam, any student observed in a situation that could be considered suspicious (e.g., an open book within his/her field of vision, looking around or checking a cell phone or other wireless device, etc.) but no cheating is observed, will be warned. Once warned, any applicant found cheating on written exam will be failed for the exam and prohibited from retaking the written exam without permission from the dean.

Students cannot leave the room during the test/exam. As soon as a student leaves, his/her exam is considered finished.

**Lecture is not a substitute for textbooks.** Students should read textbooks and use other sources to be prepared for the tests. Lecture is to guide the students to prepare for the course subjects.
SCHEDULE OF TOPICS:

08/26/2015 – Skeletal System

09/02/2015 – Muscular System. Quiz # 1

09/09/2015 – Respiratory System. Quiz # 2

09/16/2015 – Digestive System, Nutrition. Quiz # 3

09/23/2015 – Circulatory System. Quiz # 4

09/30/2015 – Blood and Blood Vessels Lymphatic System, Lymph Nodes and Lymph Vessels. Quiz # 4b

10/07/2015 – Nervous System and Organs of Special Senses. Quiz # 5

Midterm Exam

10/14/2015 – Endocrine System. Quiz # 6

10/21/2015 – Urinary System. Quiz # 7

10/28/2015 – Male Reproductive System. Female Reproductive System. Quiz # 8

11/04/2015 – Human development — embryo, fetus. Role of DNA in human body. DNA technology and genetic engineering. Quiz # 9

12/02/2015 – Presentations of Projects

12/09/2015 – Review and Final Examination

Due date for the project is 12/02/2015.

Syllabus was updated on August 21, 2015.

Note: Instructor may change this syllabus and course schedule at any time according to the judgment as to what is best for the class. Any changes will be declared ahead of time in class.
