### EDUCATIONAL OBJECTIVES

This course is about challenges and opportunities that companies meet when going international. In our study we will attempt to break artificial barriers that divide trade theory, international finance and political economy in order to gain a better understanding of the highly interconnected modern business world.

Upon completion of the course students will be able to:

- 1) Define key ideas and concepts in the field of international business
- 2) Identify various types of political, legal and economic systems as well as corresponding threats and opportunities for business and investment.
- 3) Analyze cultural variables and their effect on business activities.
- 4) Discuss and compare rationales and limitations of international financial and monetary systems as well as governmental trade policies.
- 5) Critically analyze risks and benefits of international business as related to global investment and marketing strategies.
