

# BA 366 Econometrics COURSE SYLLABUS Spring 2025

Instructor: Dr. Mohamed Tailab

Lecture Schedule Th 9:00 am – 11:45 am

Credit: 3 units / 45 lecture hours

Level Mastery 2 (M2)

Office Hours: Monday, 10:30 am – 12:00 pm, 4th Floor, Room 402

Wednesday, 11:00 am -12:00 pm, 4th Floor, Room 402

E-mail: mtailab@lincolnuca.edu)

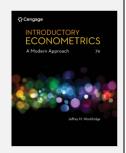

Textbooks: Introductory Econometrics: A Modern Approach

(7th Edition, 2020), Jeffrey M. Wooldridge.

ISBN-13: -978-1337558860 ISBN-10: 1337558869

Last Revision: January 1, 2025

NOTE: This schedule is subject to change.

#### **CATALOG DESCRIPTION**

The course introduces students to a comprehensive review of econometric methods for linear models. Among topics covered are: the linear regression, linear simultaneous equations systems, maximum likelihood and instrumental variables estimation strategi es, hypothesis testing. Different data and variables presentations and features are discussed. (3 units) Prerequisite: BA 241 or BA 360

# **LEARNING OBJECTIVES**

Econometrics is the intersection of statistical techniques, business, and finance. Econometrics will provide students with a set of tools that are useful for modeling financial/business data, forecasting, and testing beliefs about market behavior. Econometrics is a specialized area of statistics which deals with the measurement of economics and business data. It is broadly applied in business and industry. It requires the application of economics and business theories and use of dedicated statistical software. This application can easily be learned with the aid of personal computers. The study of econometrics addresses the unique features of stochastic behavior which characterize Business and Economics. It involves the study of multiple linear regression and time series analysis and forecasting. Its methods are tailored to deal with the departure of the economic and business

behavior from the standard models of regression analysis. In this class, we will start with univariate random variables and their distributions, will cover linear models and generalized linear models, hypothesis testing, and concepts of bias and risk. Students will be introduced to Constant Expected Return model and Portfolio Theory. Finally, students will be exposed to multivariate statistical concepts of principle component analysis (PCA), exploratory factor analysis (EFA) and confirmatory factor analysis (CFA).

# COURSE LEARNING OUTCOME<sup>1</sup>

Course LO	Program Learning Outcomes	Institutional Learning Outcomes	Assessment activities	
1. Demonstrate ability of modeling business and economics relationships based on economics and business theories.	PLO 1	ILO 1b, ILO 2b	Homework, case analysis	
2. Understand the assumptions of the classical Linear Multiple Regression model, and the departure in econometrics from these assumptions.	PLO 1	ILO 1b, ILO 2b	Homework, case analysis, and empirical project	
<b>3.</b> Gain familiarity with transformation of economics models	PLO 1	ILO 1b, ILO 2b	Homework, case analysis, and empirical project	
4. Demonstrate ability to estimate parameters of the Linear multiple Regression model, how to test hypotheses regarding the parameters values, and how to forecast based on this model	PLO 1	ILO 1b, ILO 2b	Homework, case analysis, and empirical project	
5. Gain experience in computer processing of econometric data	PLO 2	ILO 1b, ILO 2b, ILO 4b	Homework, case analysis, and empirical project	
6. Demonstrate ability to estimate the biased effects of errors in variables on the estimated variable and how to use instrumental variables to eliminate or minimize the bias.	PLO 2	ILO 1b, ILO 2b, ILO 4b	Homework, case analysis, and empirical project	
7. Demonstrate ability to test for serial correlation, estimate it and how to take advantage of the estimate in generating forecasts.	PLO 2	ILO 1b, ILO 2b, ILO 4b	Homework, case analysis, and empirical project	
<b>8.</b> Demonstrate ability to deal with multicollinearity.	PLO 2	ILO 1b, ILO 2b, ILO 4b	Homework, case analysis, and empirical project	

# **MATERIAL**

**Required Textbook**: Jeffrey M. Wooldridge, "Introductory Econometrics: A Modern Approach", 7th Edition. Access the eBook, ISBN: 9780357693223, (Access until June 30, 2025, \$62.99) Buy or Rent the Textbook, ISBN: 9781337558860, (Access until June 30, 2025, \$75.00)

<sup>&</sup>lt;sup>1</sup> Detailed description of learning outcomes and information about the assessment procedure are available at the <u>Learning Outcomes Assessment</u> section of LU website.

**Software**: The main software we will use is Gretl. Gretl is freeware econometric software, which can be downloaded at: https://gretl.sourceforge.net/

Excel will be used for data management.

A computer with 365 Office is required to attend the class. Lincoln University Computer provides students with free Office 365.

#### KEY TO SUCCESS

# To prepare well for class, you need to follow these steps:

- 1. Before class, read the PowerPoint slides posted on Canvas.
- 2. Take notes in the class; summarize the main ideas in your index cards.
- 3. Read the specified chapter of the textbook and work through the end of chapter problems and solutions to supplement your understanding of the material.
- 4. If you are still facing some challenges, stop by my office either during office hours or any time by appointment through e-mail.

#### **GRADING**

All activities will be graded according to the points as shown below.

Grade	A	A-	B+	В	B-		C+	C	C-	D+	D	F
Points	95-100	90-94	87-89	84-86	80-8	33	77-79	74-76	70-73	67-69	60-66	0-59
Tentative		Participat	ion and F	Homewo	ork	10%	)	Course group project			15%	
Weights	eights Quizzes		5%		Midterm Examination			30%				
								Final exam	ination			40%
Note: Missing the final exam will result in a failing grade for the course, no matter how many points you have												

<u>Note</u>: Missing the final exam will result in a failing grade for the course, no matter how many points you have accumulated.

# **CLASSROOM PROTOCOL**

Students are expected to arrive on time and be prepared to take a quiz and participate. If for some reason you are running late, **do not skip the class**. I prefer that you come late than not at all. If you must leave class early, please tell the instructor before class starts. If you cannot attend the class or other activities such as homework or quizzes for a strong reason, please inform the instructor in advance so that arrangements can be made to complete any missed work after the absence. All communication and electronic devices should be turned off or silent in the classroom (cell phones, music devices, etc.). Please, do not eat food in class. It is distracting to me and your fellow students. Bottled water, coffee, tea, and soft drinks are allowed.

# **ATTENDANCE**

Students are expected to attend each class session. If you cannot attend a class due to a valid reason, please notify the instructor prior to the class. Students will not receive any credit for missed assignments or quizzes.

# Administrative policies on absences from classes are as follows:

- A student receives a warning notice after missing 20% of class meetings completed in a course.
- A student is placed on probation after missing 30% of class meetings completed in a course.
- A student may be dismissed after missing more than 40% of class meetings completed in a course

#### **GENERAL SAFTEY ON CAMPUS**

The capacity of the elevator is four people, please practice common sense and do not take it if you are the fifth person.

#### **HOMEWORK**

The homework problems cover all chapters from 1 through 14 in the textbook which will be posted on canvas weekly. These assignments will typically consist of some theoretical exercises, conducting analyses on provided data and turning in a results report (write-up) describing the findings, but may include other questions. Although these are individual assignments, students are welcome to work with other classmates on the homework, but it is expected that each student turns in his/her own, independently written. The assignments must be submitted on time. To request an extension on the deadline for an assignment, students must speak to the instructor one week prior to the due date. Students will receive feedback from the instructor in the class, and they will be able to correct answers to master the material.

## **QUIZZES**

Eight (8) lesson quizzes will be given at the very beginning of the class. The primary purpose of these quizzes is to encourage and reward the student's timely progress through the course materials. Each lesson quiz covers only the material for the previous lecture. Each lesson quiz consists of some combination of true/false, multiple choice, and calculated questions. Only the 5 best out of the 8 possible quiz scores will be used in determining a student's final grade. **There will be no makeup quizzes given.** 

#### **EXAMS**

Two examinations [Written Essay Exams and Closed Book] will be given throughout the course. the exam will run for two hours and a half. If you need additional time for an exam because of a university-recognized disability, you need to request a special accommodation. Lincoln University assists students with disabilities by helping to remove barriers to success. To request accommodations, please fill out and submit this form. ADA Accommodations – ACQA website (lincolnuca.edu). If a student is unable to take an exam at the scheduled time due to an emergency or extenuating circumstance, the student can take the exam during the instructor's office hours. Gum Chewing during exams: Please be advised that gum chewing may impede the concentration process of your fellow students because gum chewing can be noisy and distracting to other students.

## **GROUP PROJECT**

**Group project** (2-3 students). Requirements to be announced on February 6. A one-page tentative proposal is due on February 20. The final draft is due in class on April 24. You will provide three status updates throughout the term on the progress you have made to date on your paper. This enables the instructor to provide you with the necessary feedback. The project will be evaluated according to the following writing criteria:

1- Content (60%), Organization (20%), and APA Format (20%)

#### **CHEATING AND PLAGIARISM**

Cheating is the actual or attempted practice of fraudulent or deceptive acts for the purpose of improving one's grade or obtaining course credit. Acts of cheating include, but are not limited to, the following: (a) plagiarism; (b) copying or attempting to copy from others during an examination or on an assignment; (c) communicating test information with another person during an examination; (d) allowing others to do an assignment or portion of an assignment; (e) using a commercial term paper service. Penalties for cheating and plagiarism range from a 0 or F on an assignment, through an F for the course, to expulsion from the university. Anyone caught cheating or plagiarizing will receive a zero (0) on the exam or assignment, and the instructor may report the incident to the Dean of Students, who may place related documentation in a file. Repeated acts of cheating may result in an F in the course and/or disciplinary action.

#### ACADEMIC HONESTY

In the advancement of knowledge requires that all students and instructors respect the integrity of one another's work and recognize the important of acknowledging and safeguarding intellectual property. Accordingly, Lincoln expects the highest standards of honesty and integrity from all members of the academic community. As a student, you must know that all forms of cheating, falsification, and plagiarism are against the rules of this course and of Lincoln University. It is your responsibility for asking the instructor for clarification, if you are not sure of what constitutes academic dishonesty are.

#### DISCUSSION AND PARTICIPATION

Participation includes preparing for class, completing assignments on time, engaging in class discussions and team presentations and homework explanations. Students are expected to be prepared for and participate in each week. You would lose some participation points if you were absent without informing the instructor, and if your behavior in the class obstructs other students to learn by leaving and returning to class while it is in session.

### **EXTRA HELP**

If you find the course material challenging, please see me anytime. So, I can help you by clarifying lecture material. Additionally, do not wait to see me, if you are struggling.

# **METHODS OF INSTRUCTION**

The instructor will conduct the course by giving lectures, facilitating solutions to in-class exercises and conducting discussions to encourage class participation by students. Students must read each chapter before class according to the tentative schedule provided (see below), and they are responsible to ask questions and request clarifications during the class session. The PowerPoint slides are designed to give students a head start in learning course materials, but they are not intended to substitute.

Assignments and projects require students to actively use resources of the library. Detailed guide to business resources of the library as well as the description of Lincoln University approach to information literacy are available at the LU Library website (lincolnuca.libguides.com).

#### E-MAIL AND CANVAS

E-mail and Canvas are required for this course. E-mail is the best way to contact the instructor. E-mails are generally answered within 24 hours during the week. If you do not hear from me within

that time, please contact me again. Students are required to use their university e-mail for correspondence and are responsible for checking their account daily for correspondence from the lecturer.

#### **EMAIL POLICY**

- ➤ Weekdays: emails received by 6.00 pm would be responded by the end of the day. Anything after that hour would be responded in the following day.
- ➤ Weekends: emails are to be checked sporadically, and thus you should not expect a response within the same day.
- ➤ Longer questions are easier and preferable to be addressed and answered during office hours.
- > Please ensure that your email includes both your name and the name of the course.

#### **WORK ETHICS**

Lincoln University instructs and evaluates students on work ethics. These work ethics have been identified and defined as essential for student success: appearance, attendance, attitude, character, communication, cooperation, organizational skills, productivity, respect, and teamwork. So, Lincoln University' students are expected to adhere to the highest standards of these 10-character traits in their behavior as well as their coursework.

## RECOMMENDATION LETTERS

Students are eligible to apply for a Board Trustees Scholarship. This scholarship is awarded from funds provided by the University. The instructor gives only two recommendation letters one week before the semester ends. The best candidates should match the work ethics.

#### **COURSE SCHEDULE**

Lecturers	Activities and Assignments	
30-Jan	Introduction to the course (Syllabus):	Ch.1
	The Nature of Econometrics and Economic Data	
6-Feb	Simple Regression Model	Ch.2
13-Feb	Multiple Regression Analysis: Estimation	Ch.3
20-Feb	Multiple Regression Analysis: Inference	Ch.4
27-Feb	Multiple Regression Analysis: OLS Asymptotics.	Ch.5
6-Mar	Multiple Regression Analysis: Further Issues	Ch.6
13-Mar	Midterm Examination	
20-Mar	Spring Recess	
27-Mar	Multiple Regression Analysis with Qualitative Information	Ch.7
3-Apr	Heteroskedasticity	Ch.8
10-Apr	More on Specification and Data Issues	Ch.9
17-Apr	Basic Regression Analysis with Time Series Data	Ch.10
24-Apr	Further Issues in Using OLS with Time Series Data	Ch.11
1-May	Advanced Panel Data Methods	Ch.14
	Advanced I and Data Methods	C11.1 1
8-May	Project Presentation	CH.11
