All students will participate in class discussions, formal presentations, and in-class exercises. Short oral presentations may also be required in conjunction with homework assignments and in-class discussions. Detailed guide to business *resources of the library* as well as the description of Lincoln University approach to *information literacy* are available at the [LU Library website \(lincolnuca.libguides.com\)](http://lincolnuca.libguides.com).

ATTENDANCE

Students are expected to attend each class session. If you cannot attend a class due to a valid reason, please notify the instructor prior to the class.

CLASS PROJECTS

Project work is designed to provide students opportunities for participation in all phases of the execution of a typical project, with special emphasis on project management. Projects may be assigned individually, and/or as group projects. If a number of students work together on a group project, the score for the project report and presentation will be the same for all members of the project team. The Final Report for a group project will be turned in as a formal electronic document. All sources of content in a project report must be referenced. APA standard is recommended for formatting and organizing project reports.

EXAMINATIONS

Both, mid-term and final exams will include questions requiring written essay answers. The essay answers must be written clearly, easy to read, and organized logically with reference to the questions being answered. Graphs, charts, tables, and other supporting illustrations should be inserted in the answers, where appropriate.

Examples to illustrate the answers are required. Exams will cover all assigned chapters, and any additional readings or supplementary materials covered in class.

Both examinations will be conducted in the class and in-person.
